

Elimination of Brown Plant Hopper in Rice

12. November 2010, first spraying of effected field from Mr. Boonserb

2nd December, well recovered field after first time spraying **HERBAGREEN®**

30 minutes after spraying Herbagreen, Plant Hoppers fall into water

Damaged fields in Ampere Don Jedi / Suphanburi:

Farmer: Mr. Boonserb Yordpang Tel.: 084 3177 964

Rice field badly effected by Plant Hoppers.

First spraying with 0,4% **HERBAGREEN®** solution , or 1 kg

HERBAGREEN® mixed with 250 liters of water

Or 4 table spoon **HERBAGREEN®** mixed with 20-25 liters water / spraying machine.

Field totally recovered after 2nd spraying

Farmer comment:

First he planed to destroy young rice field and re-plant for control of pest outbreak.

Mr. Boonserb see improvement, also show to his neighbours which also start using **HERBAGREEN®** .

First spraying on effected field

Plant Hoppers on Rice Leaves

12. Nov. 2010, first spraying with **HERBAGREEN®** on damaged field

Dead Plant Hoppers after only 15 – 20 minutes

Rice plants FREE of Plant Hoppers

Recovery of damaged fields

Clear visible damage

3 weeks later, same plot very well recovered - visible on dark green shade

Farmer planed to destroy young rice and re-plant the whole field

3 weeks after spraying, field recovered so well that no re-planting is necessary

Reference of success

12.Nov. 2010: Mr. Wiveck sprays effected field with **HERBAGREEN®**

2.Dec.2010: well recovered field within 3 weeks after first spraying of **HERBAGREEN®**

Report on effected Farm in Ampere Don Jedi:

Farmer: Mr. Wiveck Yamvong,

Tel.: 083 2587 573

First visit/spraying 12th Nov 2010, Rice 40 days of age. No **HERBAGREEN®** used before.

2nd spraying on 3.Dec. 2010

30 minutes after spraying **HERBAGREEN®**, effect in Rice can be seen by „falling“ Plant Hoppers. Eggs: to prevent next generation of Plant Hoppers to hatch, re-spraying within 1 week should be done.

After 2nd spraying, field completely recovered and farmer did not need to re-plant field!

HERBAGREEN® is certified in Europe and US for organic farming and therefore completely safe for Human and Plants.
