

Rice: Recovery from damage by Rats

Dec. 2010

Damaged area 7th November 2010

8th December, Recovered - with growth of new Pinnacles

Damaged field in Lam Lukka / Bangkok:

Farmer: Mr. Prasith Tel.: 0829 887 593

Rice field damaged by rats. Pinnacles eaten up (see circled area)
Damaged area has been sprayed with **HERBAGREEN®** to test possibility to recover loss on damaged plants.

Within 2 weeks damaged rice plants recovered and re-produced pinnacles!

New pinnacles had a delay in maturity of about 1 week to 10 days.
Visible good Pinnacle density

Newly recovered Pinnacles

Recovery in more areas by **HERBAGREEN®**
